Matt and Tom,

This looks great. I have no substantial comments as it seems to be a very nice repackaging of the excellent work that you have already done (with some good narrative in introduction). My only question is whether the cross-cut figure has that issue with lateral vs vertical scale issue that we dealt with before. Either way, I think that we are fine, the figure makes its point very well.

Thanks and great job,
 Michael

Hi Michael and Diane,

Happy New Year. I hope you are both well. Tom and I just wanted to follow up to see if you had any input on the Allied 2015 reuse support summary document (originally submitted for your review Nov 20, 2015) before we close out the project?

Thanks.

Subject: Allied 2015 Reuse Support Summary Handout

Hi Michael and Diane,

Skeo Solutions has developed the attached summary of the 2015 reuse assessment evaluating reuse opportunities for the proposed remedial alternative for Allied Landfill. It's a short 4-page document that recaps key findings including the graphics developed and presented at the June 26 public availability session in Kalamazoo. Has the public comment

period for the proposed plan closed yet? Hopefully the groundwork established over the past few years has made for a smooth comment period.

Please let us know if you have any comments on the draft summary or if outcomes of the public comment period change any of the recommendations or conclusions here. We'd be happy to set up a conference call to discuss, if that would be helpful.

Thank you!
